Hi Sean,

Thanks again for your time and the information you provided on our call with Lori and Patty yesterday. During that conversation, you said that EPA would like to clarify the intent of the comments and explore options for resolving them, but the deadline to dispute EPA's October 18 comments does not provide a large enough window to do that. You and Lori said that to have more time NW Natural must seek an extension. We are therefore requesting an extension of the deadline to initiate dispute resolution to November 14th, 14 days following the meeting we have scheduled for October 31st.
